Subject: Our sever complaints and intense objections to Mr. Infantino (and the FIFA) regarding the issuance of a license for us to hold a tournament for the best world soccer champions or the "finals", which was introduced as a "Small World Cup" under the name and for the benefit of FIFA.

Dear Sir/Madam

Mr. Infantino has recently proposed the launch of the Small World Cup. We would like to inform you that our group (Football Diplomacy), the Golzang website, on Feb. 22, 2017, presented the same proposal to FIFA's new management in a letter Numbered 4121395. However, we put forward this proposal for the first time in 2007 and it was published in the Iranian media, and we

sent a letter to the Iranian Federation and the former management of FIFA and our letter was submitted to the Iranian Football Association.

The former management not only did not respond and comment to our request, but they committed malversation in an unobtrusive way, and proposed some of our plans like our two-year World Cup and Smart Ball under their own name. In addition, this may have caused them to fail and fall, and they were eliminated from football and FIFA.

Unfortunately, with this new comment suggested by Mr. Infantino, and considering that our proposal to hold the tournament for the finals was presented unfairly under their own name and under the fake title of the "Small World Cup", it turns out that the same form and manner of the previous FIFA management is coming up in the new management board.

As stated in our letter and proposition, we stated that we have all the material and moral rights to this tournament and we would like to receive the privilege of holding it. Our purpose of making this proposition and the benefits of this was for ourselves and for our country that the tournament will be held permanently or every two year in Iran, but it turned out that it was proposed under the name of FIFA and the benefits will be saved for FIFA and its executives! FIFA and its management did not have at least this fairness to express the original name of the Iranian developer for this unique and interesting proposal.

We hereby wish Mr. Infantino to be fair and reasonable to consider that we (Staff at Golzanf.com) have been pursuing and registering this plan for more than a decade. You have conscientious and we hope you consider this conscience! Most importantly, public opinion and football lovers are conscientious and their conscience is fiercer. It is not fair that everything ends under your name and for your interests.

We hereby announce that we resolutely and seriously follow the matter and we have the right to make a complaint and protest to the judicial, media, institutions and national (Iranian) and international organizations at any time and place. In addition, we will pursue the pursuit of this tournament in order to obtain and maintain our moral and beneficial rights.

Yours,

Mr. Golzang

Director of the Golzang Diplomacy Football Association
