Complaint letter No. 4121402
Date: May 28, 2018
To: Court of Arbitration for Sport (CAS)
From: Golzang.com
Subject: Sever complaints and intense objections to Mr. Infantino, the president of FIFA.

Summary: Complaints and intense objections to Mr. Infantino and the FIFA regarding the issuance of a license for us to hold an annual “Peace Tournament of the Finals Cup” to introduce the world’s best and strongest football team of the year, which was named by "Small World Cup" under the name and for the benefit of FIFA.

Dear Sir/Madam

Mr. Infantino, the president of FIFA, has recently proposed a plan, called “Small World Cup”, or the Tournament of the Finals. We would like to inform you that our group, Golzang Website, on Feb. 22, 2017, presented the same proposal to FIFA's new management in a letter Numbered 4121395.

However, we put forward this proposal for the first time in 2007 and it was published in the Iranian media, 90 Sport Newspaper and it was also mentioned on the website of ISNA News Agency in Iran and the proposal was praised there as an innovative plan and we sent a letter to the former management of FIFA. This plan was also corresponded to the Iranian Football Federation.

The former management not only did not respond to our proposed tournament, but they committed malversation in an unobtrusive way, and proposed some of our plans, like two-year World Cup and Smart Ball, under their own name (Sep Blatter).

In addition, this may have caused them to fail and fall, and they were eliminated from football and the FIFA. Unfortunately, with this new proposal suggested by Mr. Infantino, and considering that our proposal for holding the tournament for the finals was presented unfairly under their own name and under the fake title of the "Small World Cup". Now one can understand that the same form and manner of the previous FIFA management is coming up in the new management board. As stated in our letter and proposition, we stated that we have all the material and moral rights to this tournament and we would like to receive the privilege of holding it. Our purpose of making this proposition was to have the benefits of this tournament for ourselves and for our country, Iran. The tournament will be held permanently or every two-year in Iran, like many international tournaments in many countries, such as the ones held on the day of independence or under the name of the President Cup, etc. We did not want the FIFA to hold the tournament and introduce it under its name! We also did not intend to direct its benefits to the FIFA!

Mr. Infantino and the presidential board of FIFA were not that fair and reasonable to give reference to the original developer of the plan (Staff at Golzanf.com) and consider our benefits of both corporeal and material rights. Following are some of the cases that the FIFA and its

new management board do not consider or observe:

1. Unfaithfulness and immorality by committing malversation.
2. Failure to respect copyright law and misuse of others' achievements for personal gain.
3. Inobservance of the basic moral principles.
4. Abuse of job position for personal gain
5. A kind of disrespect for the ideas, opinions and personality of the fans and the public opinions.

Therefore, we hereby officially claim our rights and announce our complaint and we would like the CAS to consider this case and urgently resolve this matter and consider our rights:

1. Acquiring the license of holding this tournament for us as the main inventor of the idea to fully enjoy the rights and interests.
2. The FIFA's official announcement mentioning our website and group as the main developer of this unique design.
3. Iran's priority for the annual holding of this project and tournament on a permanent basis.

It should be noted that all the required documents are enclosed to this letter and the names of some members of the group are listed under the pseudonym (Pooya Adam and Pooya Pooya) in the media. Also, all the letters, correspondences, transcripts and documents are available on our website.

FIFA should be fair. We have been pursuing this initiative for more than a decade, and we have made an effort to register and achieve it and have been working hard for it.

Mr. Infantino must consider his conscience! Most importantly, public opinion and football lovers are conscientious. It is not fair that everything ends in Mr. Infantino's name and interests!

Therefore, here again we declare that we resolutely and seriously pursue this matter and give our complaint and we know at any time and place that it is necessary to file a sue to the judicial, legal, media and national and international organizations and institutions. In addition, we will pursue rigorously and steadfastly our rights in order to obtain and receive our rights in relation to this tournament.

Yours,

Mr. Golzang
